This article has been withdrawn at the request of the publisher. The article was submitted for inclusion in the Supplement of full papers from the 8th International Symposium on Women's Health Issues in Thrombosis and Haemostasis (WHITH), to be published in 2019, but on acceptance it was mistakenly treated as if it were a regular article in the Journal. The article will feature in the Supplement. The Publisher apologizes to the authors of this article and to readers for any inconvenience this may cause.

The full Elsevier Policy on Article Withdrawal can be found at <https://www.elsevier.com/about/our-business/policies/article-withdrawal>.
